GREEKS FLEE IN PANIC BEFORE THE TURKS

CELEBRATION OF BRIDGE TO BE BIG EVENT

Program Rounding Into Shape With Many Features Provided to Entertain

PIONEERS HONORED Special Home-Coming Announced.—Bismarck to Celebrate 50th Anniversary

Rehearsal All Indians, trappers, Vendors, 1864 soldiers, principals and singers in pageant rehearsal at Country Club grounds, 7 p. m. Monday.

Celebration of the completion of the big bridge over the Missouri will combine jollification with a home-coming for the pioneers of the Dakotas, addresses by prominent citizens of the United States, celebration of the Golden Jubilee of the founding of Bismarck and the presentation of the mammoth Historical Pageant in Bismarck and in Mandan.

The first complete tentative outline of the celebration, announced today, includes the following:

Mammoth Historical Pageant, Bismarck, Monday evening, Sept. 18; Mandan, Tuesday and Wednesday evening, Sept. 19 and 20.

Home-coming for Pioneers and others.

Formal dedication of the new bridge at 3 p. m. Monday, Sept. 18, preceded by band concerts, industrial parade in Bismarck and Mandan with handsomely decorated floats.

Big Barbecue, one day in Bismarck, one day in Mandan.

Airplane flights.

Remarkable display of relics in both cities.

Theodore Roosevelt Jr., assistant secretary of the navy and son of the deceased former president, is expected to be one of the chief guests of honor. He was invited especially because of the part his father played in western North Dakota history. Mr. Roosevelt has an engagement at that time with the New York Legion, which he made sometime ago, but is endeavoring to make arrangements to be released, according to word to the committee. General Pershing has been invited. Judge Keadaw Mountain Landis or former Senator Albert J. Beveridge, both of whom rank as among the most entertaining speakers in the country, will be at the bridge pageant, it is expected. The United States Bureau of Roads will be represented by Thomas McDonald, chief, or E. W. James, assistant, and other prominent citizens of the Northwest will be here. The committee is endeavoring to have Mrs. George Custer, widow of General Custer, who has never visited Bismarck since the famous massacre, be present.

Pioneers Coming

Invitations have been sent out to pioneers who helped make North Dakota, to various parts of the country and many replies of acceptance have been received.

Bismarck this year celebrates her 50th anniversary, and this special feature will take the form of an episode in the pageant. The Golden Jubilee colors will be yellow, and citizens and merchants are asked by the decorations committee to remember this in planning the decorations.

There will be a booth placed on the Northern Pacific park next Tuesday where pioneers and out-of-town people will register and pageant tickets may be obtained.

The Historical Pageant is a new form of entertainment to this section. It is to be carried out on a mammoth scale. There will be about 1,000 actors in it, in both cities. It will be somewhat different in the two cities, emphasizing certain historical features especially appropriate for the cities. The pageant in Bismarck will be given back of the Country Club where there is a valley which makes a wonderful stage and hills which provide a natural amphitheater. Powerful searchlights will be used. In Mandan the pageant will be in the ball park.

Everybody Helping

All organizations are showing a remarkably fine spirit of cooperation Mrs. Thursday said today. The Rotary club members are getting especially enthusiastic over their act—a "Wild West" scene in Bismarck, in 1872. Rehearsals of various scenes are being held daily.

Because the bridge is held to be not merely a Bismarck-Mandan bridge, but an important link in the development of western North Dakota, citizens in all parts of the Missouri Slope are displaying keen interest in the celebration and pageant.

Directors Arriving

The directors of the Thurston management are arriving today to take charge of the various local pageant activities. They include:

Miss Mary Brown, ball director; Mrs. L. C. Wallin, organizer; Mrs. A. C. Lucas, business manager; Fred McQuinn, business manager; Victor Muller, band conductor; and Frank Nooney, light and property director, will arrive in Bismarck this evening.

MRS. HARDING CRITICALLY ILL—PASSES FAIRLY GOOD NIGHT; DR. CHAS. MAYO SUMMONED

Washington, Sept. 9.—The condition of Mrs. Harding, wife of the president, critically ill at the White House, was reported at 9:30 a. m. today to be "as favorable as can be expected at this time."

A bulletin issued by Brigadier General C. E. Sawyer, physician in attendance, said Mrs. Harding had a "fairly good night" and that complications of yesterday were "less threatening" this morning.

The note of optimism sounded by Mr. Daugherty was echoed by other attaches at the White House who regarded as distinctly hopeful the absence of any untoward symptoms in the patient's condition during the night.

Mrs. Harding's age—she was born in Marion, Ohio, in 1860—had been expected to have distinct influence on the course of her ailment.

Summons Brother

President Harding remained at the bedside until late last night, after spending much of the day there yesterday, and it was said he would forego all official duties today unless Mrs. Harding's condition took a decided change for the better. Dr. George T. Harding of Columbus, Ohio, a brother of President Harding, was on his way here today in response to a summons from the White House.

Dr. John Finney of Baltimore, was called in consultation last night and was remaining with the patient today and Dr. Charles Mayo is enroute from Rochester, Minnesota. Dr. Carl W. Sawyer, of Marion, Ohio, son of Brigadier General Sawyer, arrived for consultation yesterday, and Dr. Joel T. Boone, naval medical officer on the yacht, Mayflower, also is in attendance.

She had recovered sufficiently early this week to again leave her room but later suffered a setback with complications which made her condition critical.

The present recurrence of the illness, described as hydro-nephrosis, from which Mrs. Harding has suffered at intervals since a surgical operation nine years ago, was first felt by her nearly two weeks ago while on a week end cruise.

Attorney General Daugherty, who remained throughout the night at the White House because of the critical condition of Mrs. Harding, wife of the president, said on leaving there early today that she has passed a more comfortable night than had been expected and that he believed her "pluck and will power" would carry her safely through the crisis.

The condition of Mrs. Harding, wife of the president, continued today a series of anxiety to those in attendance at her bedside although it was stated officially that the complications noted yesterday were "less threatening."

A rise in the patient's temperature was recorded during the forenoon but this was not unexpected by the physicians, who did not view it as necessarily a dangerous symptom.

Brigadier General C. E. Sawyer informed newspaper men at noon that the statement issued from the White House this morning would be the last, until 8 o'clock tonight, unless there was a radical change.

For the first time since the Hardings entered the White House the public was barred today from the historic mansion.

President Harding remained in the White House proper today in order to be close to the sick bed. His engagement book was kept clear with the same object in view.

More complete diagnosis of the exact cause of the hydro-nephrosis and a determination of whether a surgical operation may be necessary or advisable will not be reached until after the arrival of Dr. Charles Mayo of Rochester, Minnesota, who now is on his way to Washington and is expected here late tonight or early tomorrow.

The nomenclature of medicine describes hydro-nephrosis as an accumulation of fluid in the pelvic region of the kidney caused by an obstruction of the flow of urine between the kidneys and the bladder. Frequently it has been misdiagnosed as dropsy, and it is believed that previous indications of the same trouble in Mrs. Harding's case have misled intimate friends to believe that she was disposed to a dropsical condition, known medically as ascites.

JUDGE MILLER TO HEAR CASES

Will Hold Court in Bismarck During Next Week

Judge Andrew Miller will hold federal court in Bismarck all next week. It is expected that several matters will be before the court during that time. J. A. Montgomery, clerk of court, is expected to come to Bismarck Sunday night to remain during the hearings.

Judge Miller probably will hold court in Bismarck during most of the month of September, unless it is necessary for him to go to St. Louis or some other point to help clear up congestion of federal court dockets, it was said.

MRS. WARREN G. HARDING

UNION MINERS WILL ASSIST INDICTED MEN

To Ask Release on Bond of 11 Indicted in Herrin Massacre Probe

STATE TO RESIST Attorney General Brundage Wants Men Held in Jail Until Trial

(By the Associated Press)

Marion, Ill., Sept. 9.—Efforts to have the 11 miners who have been indicted in connection with the killings at Herrin released on bond, were learned today to be made soon, it was reported today.

A. W. Kerr, chief counsel of the Illinois mine workers and other attorneys assisting in preparing the defense of the indicted men were making preparations today to continue a move for the release of Otis Clark, the first man held, which has been pending since his arrest, and a fight to obtain freedom on bonds for the others arrested.

Attorney General Edward J. Brundage and States Attorney Delos Duntz, who have been conducting the investigation have already made known they will resist any attempt to release the men charged with murder.

The grand jury is resting until September 18, after returning fifty-eight indictments for conspiracy to kill and for rioting. Thirty-seven of those indicted, were also charged with murder.

That this investigation will be thorough and complete was made known by the grand jurors' action yesterday, when through their foreman, John Stewart, the investigators announced that the following phases were yet subject to investigation:

The killing of the three union miners whose death precipitated the rioting on the following day, the action of the heads of the Southern Illinois Coal Company prior to and after the reopening of the Lester Strip mine and also the reported theft of the mine equipment.

"We will make an absolutely thorough investigation," said Mr. Stewart to an Associated Press representative, "regardless of the results."

PRESIDENT IS NAMED BY DAIL

(By the Associated Press)

Dublin, Sept. 9.—William T. Cosgrave, Minister of Local Government, was elected president of the Dail Eireann by the new parliament at its inaugural session today. The only vote cast against him were by the labor members.

WEATHER OUTLOOK

Washington, Sept. 9.—Weather outlook for the week beginning Monday: Region of the Great Lakes and Upper Mississippi Valley: Generally fair with temperature near or somewhat below normal.

SECRECY VEILS RAIL CONFAB TO END STRIKE

Shopmen's Walkout Enters Eleventh Week With Conditions Quiet

FIVE MEN ARE HELD Charged with Setting Fire to Chicago-Rock Island Bridge in Oklahoma

DENIES DIVISION (By the Associated Press)

Philadelphia, Sept. 9.—Thomas DeWitt Cuyler, chairman of the Association of Railway Executives, in a statement today said that "the reports emanating from Chicago calculated to create the impression in the public mind that there is a division in the ranks of the executives, are absolutely incorrect." He said the "executives stand absolutely on the platform adopted by them at their meeting on August 23."

(By the Associated Press)

Chicago, Sept. 9.—"Nothing to say," was the reply of union leaders and railroad heads to inquiries for further enlightenment on the strike situation today.

The same air of secrecy cloaked conferences of both union chiefs and railroad executives pending developments Monday. On that day Judge James H. Wilkerson is due to hear Attorney General Daugherty's application to make the government's strike injunction permanent. The policy committee of the striking shopmen is summoned to meet the same day.

The shopmen's strike entered its eleventh week today with conditions generally quiet.

Five men were held at Tulsa, Oklahoma, on charges of setting fire to the Chicago, Rock Island and Pacific railroad bridge near Elmo, Oklahoma, on August 27. The fourth member of an alleged band of bridge burners was arrested last night, at Elmo, by Federal agents.

Four men faced murder charges at Memphis, Tennessee, for the killing of Charles Lanier, Jr., a non-union employee of the Frisco system.

Three men were reported to be in the custody of United States deputy marshals in connection with the dynamiting of a section of track of the Chicago, Milwaukee & St. Paul at Perry, Iowa.

Military and Federal authorities were without clues to the identity of bomb throwers who wrecked the homes of two Missouri, Kansas and Texas railroad shop employees at Parsons, Kansas.

A more optimistic view of the railroad strike situation was apparent in administration circles in Washington.

At Gary, Indiana, attorneys for two of the four men arrested in connection with the Michigan Central wreck at Gary on August 20, announced they would continue their efforts to obtain the release of the prisoners on writs of habeas corpus. First petitions for writs were denied.

Bishops and the house of deputies of the Protestant Episcopal church at Portland, Oregon, said prayers for peace in the railroad strike.

RAIL CONDUCTOR MEETS DEATH

Fargo, N. D., Sept. 9.—C. C. Reynolds of Minot, Grant Northern railroad conductor who was sprayed with burning gasoline Thursday at Hannaford, when a tank car caught fire from a lighted lantern, died at a local hospital at 10:30 last night as a result of his injuries. The body will be shipped to Minot tonight for burial.

Sentenced to Two Years

Fargo, N. D., Sept. 9.—E. G. Gresham, arrested two weeks ago in Minneapolis on a warrant issued by County Magistrate Judge Leigh J. Monson for the theft of three dresses from the Christian Science church here, pleaded guilty to the grand larceny charge before Judge A. T. Cole and was sentenced to two years and six months in the state penitentiary at Bismarck.

J. F. T. O'Connor To Open With Hankinson Speech

(By the Associated Press)

Fargo, N. D., Sept. 9.—J. F. T. O'Connor, Democratic candidate for United States Senator and endorsed by the Independent Voters Association will open his campaign at Hankinson on Friday September 15. It was announced at Association headquarters here today. The afternoon of September 16 he will deliver an address at Fairmont and Saturday night will talk at Wahpeton.

SEARCH SPECIES

(By the Associated Press)

Los Angeles, Sept. 9.—A search in China and Africa for humans with tails of whom stories have reached anthropologists and other scientists is planned by Captain Edward A. Schell, Los Angeles explorer.

CONFERENCE ON GRAIN PRICES DECIDED UPON

Governor Calls Meeting to Be Held in Fargo on Sept. 13 to Talk Prices

CONSIDER SITUATION Deems Situation so Critical That Immediate Steps Must Be Taken

Governor Nestos has sent out a letter to between 50 and 100 men in the state asking them to attend a conference at Fargo Wednesday, September 13, to consider grain prices and marketing. The conference will be called to order in the rooms of the Fargo Commercial club at 9:30 a. m. on that date.

Invitations were sent to heads of grain marketing and grain pooling organizations, farmers' organizations and others held to have a good knowledge of either marketing, transportation or warehousing.

The letter of the governor follows:

"I know that you are much interested in grain marketing and much concerned about the recent decline in the price of wheat and other farm products. Anticipating that this decline might come in the event of a large crop, I sent to President Harding and to Secretary Wallace last winter a telegram urging the enactment of legislation that would stabilize the price of agricultural products and insure to the farmers for their 1922 crop a price that would pay for the work and give a reasonable return on the farmers' investment. I have again telegraphed them and reiterated this suggestion, and have their assurance that they are mindful of the seriousness of the problem and will seek to find a solution thereof.

"I feel that the situation is so critical that there ought to be held in our state a conference of men who are well informed on the problems of grain marketing, freight rates, elevator changes and other elements that enter into the question of considering the problem in all its phases and to arrive at some solution thereof, if any can be found. I feel that such a conference may be and I trust will be of great value to the farmers of our state, and I sincerely hope that we may find some solution of this very perplexing problem.

"For that reason, I have called a conference to be held at the Commercial Club at Fargo on Wednesday, September 13th, at 9:30 o'clock a. m. for the purpose of considering these problems, and to discover the remedy for the existing evils, if it is at all possible to do so.

"I sincerely hope that you may be able to be with us, and that others who are well informed on these subjects will also come so that we may have the benefit of their information and counsel.

N. P. LIMITED IS RESTORED

St. Paul, Minn., Sept. 9.—The Northern Pacific Lake Superior Limited, running between Duluth and the Twin Cities, will be restored this afternoon, it was announced today. The Lake Superior Limited was annulled when the rail strike began to interfere with traffic.

The Weather

For twenty-four hours ending at noon today:

Temperature at 7 a. m. 58
Temperature at noon 58
Highest yesterday 72
Lowest yesterday 53
Lowest last night 47
Precipitation Trace

Weather Forecasts

For Bismarck and vicinity: Generally fair and somewhat cooler tonight; Sunday fair.

For North Dakota: Generally fair and somewhat cooler tonight; possibly frost north portion; Sunday fair.

General Weather Conditions

Showers have occurred in the Mississippi Valley, Great Lakes region and in North Dakota and in Kansas. Cool weather prevails from the Plains States northward and heavy frost occurred in western Canada.

BELIEF THAT 47 ENTOMBED MINERS ARE ALIVE SPURS RESCUE PARTY TO FRESH EFFORTS IN THEIR BEHALF

(By the Associated Press)

Jackson, Calif., Sept. 9.—Science, through one of its uncanny subtle instruments, had turned despair into hope when crews of diggers resumed today their task of reaching the spot walled in by rock and debris and flame where 47 workers in the Argonaut gold mine have been imprisoned for 12 days.

It seemed yesterday that the rescuers would release only corpses. An official of the company had expressed the belief that all the entombed miners were dead and every evidence apparently pointed to that. Yet, late last night, came the astonishing announcement that chemical tests had demonstrated that the men all were alive. Argonaut officials said they were preparing a formal statement declaring their opinion that none of the miners had perished. The officials backed up their assertion with the offer of a reward of \$5,000 to the first crew reaching the miners.

A delicate instrument, it was explained, had been lowered into the fiery and gaseous shaft through which the men had gone. It had recorded no gases indicating the presence of a single dead body. Moreover, it was reported to show that noxious gases had not penetrated to the region where the men were entombed but that the air in the lower levels was pure enough to sustain life.

More muck and decayed timbering instead of a clear passage was found when a bulkhead in the 3,600 foot level of the Kennedy mine was smashed in early today by one of the crews seeking to rescue the 47 entombed men in the adjoining Argonaut mine. This setback means at least another week will be required to reach the men, it was stated.

DOLLARS DROP ON BISMARCK

Novel Advertising Stunt Used By Local Store

Dollars were to drop from the sky in Bismarck and Mandan late this afternoon.

B. R. J. Hassell got ready to sail over the two cities in a novel advertising feature for A. W. Lucas & Co., dropping colored parachutes by the score from the airplane. Each parachute contained advertising matter of the Lucas company and a tag worth \$1 when applied on a purchase in various departments of the store.

The landing field chosen by the aviators is just south of the baseball park. They will take up any passengers desiring the pleasure of an airplane ride this afternoon and will be at the field all day Sunday to carry passengers. The plane is one of the finest of new designs.

On Monday morning the aviators leave Bismarck on a special trip financed by Bismarck merchants, advertising the big celebration of Sept. 18, 19 and 20.

LONDON'S CHINATOWN PASSING

London, Sept. 9.—London's Chinatown is fast disappearing. Four years ago 2,000 Chinese women were living within a stone's throw of the West India Dock gate. Now it is doubtful whether there are 700 says the Daily News.

STAMP Famine OUT

Moscow, Russia, Sept. 9.—One of the surest indications that the famine has been stamped out in Russia, according to the American Relief Administration, is the rate at which letters of gratitude and expressions of thanks have been pouring into the Moscow office of the administration during the last few weeks.

SOLDIERS AND CIVILIANS VIE FOR SHIP ROOM

Turkish Nationalist Forces Bombarding City of Smyrna With Heavy Guns

ALLIES TO TAKE TOWN Probably Will Occupy City on Which Turks Advance, Tomorrow, Advises Say

ROUT CONFIRMED (By the Associated Press)

Adana, Sept. 9.—Advices received from Turkish Nationalist sources confirm the complete defeat of the Greek army. The army, which at the beginning of the operations was estimated to aggregate 200,000 men, has lost more than half its effective.

Thousands of prisoners are being taken daily. The Kemalists continue to advance rapidly.

Athens, Sept. 9.—Smyrna is being bombarded by the Turkish Nationalists. Nine airplanes from the Greek naval base there arrived here this morning, the airmen telling of their departure from the city under artillery fire.

As they left the Smyrna airdrome an enemy shell damaged a tenth plane which was just leaving the ground. The machine was unable to continue and the aviators were ignorant of the fate of their comrades.

Smyrna is being evacuated amidst scenes of great disorder, according to refugees, 2,200 of whom have arrived here. Panic reigns as the Turks approach the town, it is declared, and the Greek soldiers are coming with civilians for places on the outgoing ships.

GREEK FLEET LEAVES

Smyrna, Sept. 9.—The Greek fleet left Smyrna harbor this afternoon. The Greek commander planned to embark tonight.

The Allies probably will occupy the town tomorrow. Allied and American detachments were landed at noon today from the warships for the protection of the foreign population.

Naturalized Americans have been instructed to leave the town.

Turkish Nationalists vanguards have been reported fifteen miles from the city.

MOVE FOR DETHRONEMENT

Constantinople, Sept. 9.—A movement for the dethronement of King Constantine of Greece and the establishment of a republic is reported by the Greek newspapers to be under way on the islands of the Grecian archipelago.

SURRENDER OF ARMY

Constantinople, Sept. 9.—Kemalist armistice terms, according to Turkish newspapers include the surrender of the Greek army as a hostage for the delivery of certain war material the Turkish occupation of the Anatolian ports, the immediate evacuation of Thrace, and the reconstruction of the regions devastated by the Greeks.

DISASTER COMPLETE.

Constantinople, Sept. 9.—The Greek disaster in Smyrna is complete, and Turkish troops are preparing to enter the city tonight or tomorrow morning, according to dispatches received here.

M. Storgades, the Greek high commissioner, Smyrna left the city today aboard the British battleship Iron Duke.

ENTERED HOME, ROBBED FARMER

Transient Arrested at Mandan—Confesses Moffitt Theft

Joe Farmer, brought to Bismarck from Mandan by Sheriff Brady, has confessed to the robbery of the home of Viggo Jensen of Moffitt. He entered the house September 4 and took an Iver-Johnson revolver and three other small articles. Farmer was found in the Catholic church at Mandan and arrested there.

He also admitted he was a deserter from the army, having gone "over the hill" at Camp Jessup, Ga., when his three-year enlistment was nearly over. He became a wanderer, he said, was arrested in New York and Milwaukee and drifted out here.

Luther Spencer, who confessed to several robberies, may be taken back to Spokane. The Spokane police answered a wire giving a description of some of the loot recovered, saying that it had been stolen in Spokane.

To Use Foreign Valuation as Basis

Washington, Sept. 9.—An agreement on the valuation of flexible tariff provisions of the Republican tariff bill was reported today to have been reached by the senate and house Republican conferees under which the principal provision of the senate would be retained with the basis of foreign instead of American valuation for calculating duties.

ASK APPROVAL OF SCORIA IN ROAD MAKING

Highway Commission Would Give It Same Status as Gravel

Recommendation that scoria, found extensively in western North Dakota, be considered on a par with gravel in consideration of bids for improving federal aid highways, will be forwarded to the United States Bureau of Roads, H. O. Wray, assistant state engineer said today.

The report, he said, is based upon scoria surfacing in the western part of the state. The material, which is red and is found in shale-like lumps, is said by geologists to be clay baked by fires of lignite coal. Wherever a lignite bed is found to have burned scoria is found above it.

Because the material is red the report will state that it is particularly appropriate for paving on the Red Trail (National Parks Highway), which passes through the state from Fargo to Beach.

The value of scoria is set out in the report as follows: Automobiles will not skid on it, wet or dry; it requires a minimum of dragging and still maintains its appearance, shape and surface; weeds and grass will not grow on the edges of the road, it is especially suitable in connection with gumbo, sticky clays and on fills by reason of its readiness to absorb and throw off moisture, leaving the road hard and dry; it is found in great quantities.

Roads which have had scoria surfaces for the last ten years show no appreciable wear or rut, if any degree of care has been taken of the road, the report says.

However, care must be used in selecting the material, Mr. Wray said, as scoria is found in the same pit varies in its degree of quality, some of it being useless. The scoria is crushed to lumps of approximately three inches before being used.

CAR SITUATION BETTER HERE, SAYS OFFICIAL

Not So Serious in North Dakota as Minnesota and S. D., Says Millhollan

The car situation in North Dakota, according to Frank Millhollan, chairman of the state railroad commission, who has returned from a fuel and car distribution conference in St. Paul.

"The reports given," he said, "were that the North Dakota roads are in fairly good shape. The Northern Pacific and Great Northern in particular. Difficulties of power are greater than those of cars. There were many more complaints of lack of cars. There were many more complaints of lack of cars for grain shipping from South Dakota and Minnesota than from North Dakota. The need for cars is expected to grow, however, and it is probable the northwest railroad commissions will send a man to Washington to speed up car distribution."

Praise for the fuel and car committee cooperation between the railroad commissions for Minnesota, South and North Dakota, Wisconsin, Iowa and Michigan was voiced by Mr. Millhollan. He declared his belief that the fuel situation is still serious and doubts if as heavy shipments of coal will come from the

east as was predicted.

V. E. Smart, traffic expert of the railroad commission, will remain in St. Paul as the representative of the state fuel distribution agency. Addison Leach of Fargo, who attended the conference in St. Paul and then conferred with officials here will leave for Washington probably Saturday to represent North Dakota's fuel interests before the national fuel administration.

Hudson-Essex Sales Growing Even Larger Will Be Considerably More

Last Half of Year, Company Declares

Sale of Hudson and Essex cars for the last six months of 1922, based on reports from all parts of the country, will be from 20 to 25 per cent greater than for the first five months, according to word just received from the Hudson Motor Car company by R. B. Loubek, of the R. B. Loubek Motor Co., local Hudson-Essex dealer.

"This is so despite the fact that May and June each hung up new production records," says Mr. Loubek. "Hudson officials report that the demand for their cars is equally as heavy as during the spring months, with no let-up in sight. Shipments from the factory for the first 15 days of August were higher than for any similar number of days in the 13 years of the company's history. Distributors and dealers throughout the country continue to report new high sales records, with many still behind on delivery. Closed car sales are growing even larger."

"Demand for cars has been so great that tentative production schedules for the later months of the year have been increased three times June 1. Sufficient orders have already been placed to keep the factory at capacity production for several weeks. No let-up because of the coal and railroad difficulties is in prospect."

"July sales set a new July record for Hudson and Essex. August sales will exceed July's and will be 200 per cent greater than for August, 1921, and nearly 40 per cent more than for the largest previous August. September sales will also set a new high September record."

"Demand from a number of sections is heavier than at any previous times this year. These points are from Portland, Ore., in the west to Providence in the east and from Dallas, Shreveport and Tampa in the south to Lincoln, Neb., in the north. States from which orders, heavier than for any time this year, have been placed are the next several weeks include Oklahoma, Tennessee, the Carolinas, Georgia, Florida, Mississippi, Louisiana and Texas in the south; Utah, Oregon and Montana in the west; Kansas, Nebraska, Iowa, Ohio and southern Illinois and Indiana in the middle west; and New York, Connecticut, Rhode Island and Massachusetts in the east. Several other states are ordering in the same volume as in May, June and July."

"More than a third of the company's distributors have ordered the heaviest shipments of the year for the next few weeks, and about two-thirds of the remainder are asking that their spring and summer allotments be continued. Sales to the rural sections are excellent, but more gratifying is the way in which metropolitan orders continue in great volume."

"The reports given," he said, "were that the North Dakota roads are in fairly good shape. The Northern Pacific and Great Northern in particular. Difficulties of power are greater than those of cars. There were many more complaints of lack of cars. There were many more complaints of lack of cars for grain shipping from South Dakota and Minnesota than from North Dakota. The need for cars is expected to grow, however, and it is probable the northwest railroad commissions will send a man to Washington to speed up car distribution."

Praise for the fuel and car committee cooperation between the railroad commissions for Minnesota, South and North Dakota, Wisconsin, Iowa and Michigan was voiced by Mr. Millhollan. He declared his belief that the fuel situation is still serious and doubts if as heavy shipments of coal will come from the

DIES IN SALT LAKE CITY.
Fargo, N. D., Sept. 9.—Word has been received here of the recent death, at Salt Lake City, of Mrs. Kate S. Goodwin, widow of Judge F. Goodwin, first attorney general of North Dakota.

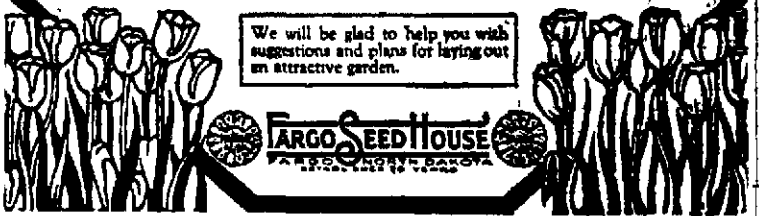

With her husband, Mrs. Goodwin came to North Dakota in 1883 and settled at Lisbon. The couple moved to Salt Lake City in 1892. Mrs. Goodwin was seventy years of age at the time of her death.

SIGNAL TESTS BEING MADE

Tests are being made here by the state highway commission of new state danger signals, the commission proposing to approve or disapprove use of the new signs on state highways, according to H. O. Wray, assistant state engineer.

One sign if of metal, oblong in shape, and has red-painted glass in the center. An automobile light flashing on it at night, causes the danger signal to flash a vivid red. Another sign is entirely of metal, the face being glazed and painted red. The same bright red danger signal flashes as automobile lights strike it. The signs are placed at a railroad crossing on the road to the bridge.

WON'T ATTEND CONVENTION.
Press of other duties, Governor R. A. Nestos announced today would prevent him being present and speaking at the banquet tendered by the Bar Association of Minot to the members of the State Bar Association during the state convention there.

MURDERER OF FORMER FORKS MAN CONFESSES
Grand Forks, N. D., Sept. 8.—The alleged murderer of William Mero, former Grand Forks man, who was shot and killed while returning from a labor meeting in Sacramento, Cal., has confessed to the shooting and is being held for trial, according to word received here. The funeral was held here yesterday.

RECRUIT DOES WELL.
Chesbro, who played with Aberdeen in the Dakota League, was taken by Des Moines at the close of the season. He clouted a home run in the ninth inning, giving Des Moines a 12 to 11 victory. Chesbro is a first baseman.

MANDAN NEWS

Re-elect Mandan Men to Trail Offices

The officers for the Metghosh-Black Hills Trail association elected at the annual convention which was held at McIntosh Wednesday were all re-elected. Fred W. Mees of Mandan, president; Thos. H. Sullivan, secretary of the Mandan Commercial club, secretary-treasurer, and C. H. Belknap, McIntosh, vice president.

The meeting was attended by many South Dakota road enthusiasts who were attracted chiefly by the fact that Gov. R. A. Nestos was slated to appear on the program. W. R. Van of Dupree, was elected president of the South Dakota association. The small North Dakota delegation did not elect a president.

Secretary Sullivan reported that the blazing of the trail had already been completed. The logging of the trail and preparations of material for a folder is now being carried on and will be issued soon. The assignment to various communities for con-

tinuing the work of the M. B. H. Trail will be about one-third of that last year. The main attention will be paid to the development of the road bed of the trail.

The place of meeting for next year was not decided upon, although an invitation was issued by Harry P. Atwater of Sturgis, S. D. The routing committee reported that no changes in the trail were required but one detour was recommended and adopted pending construction of a bridge over one stream in South Dakota.

In speaking of the road question Gov. Nestos suggested that the railroads ran generally east and west, but few north and south, and stated that the development of the north and south trails between states of ferred great opportunities.

Representatives from North Dakota included Gov. Nestos, J. E. Kaulfuss, Bismarck, secretary of the North Dakota Good Roads association; W. H. McClelland, superintendent of the state training school; P. J. Rausch, Raleigh; W. H. McGregor, South Grand county, Thomas H. Sullivan, secretary of the Mandan Commercial club.

Methodists Will Hold Conference Here

The annual conference of the Methodist Episcopal church of North Dakota will be held in Mandan, Oct. 11 to Oct. 15. Bishop E. G. Richardson of Atlanta, Ga., will preside at all the sessions which will be held in the Methodist church. Bishop Burns of the Helena area in which North Dakota is included, will be present at some of the meetings.

Bishop Richardson and his associates will make the Lewis and Clark hotel headquarters. The laymen will hold all of their meetings in the Presbyterian church. Suppers will be served by the churches of the city each day of the conference. The Methodists will serve first in the church basement.

In answer to 160 notices of the meetings which were sent out by the state committee, 90 pastors replied that they would be present. Many of them will bring their families.

Miss Louise Fuller, daughter of Mr. and Mrs. W. C. Fuller of Fargo, former residents of Mandan, will leave Monday for Sweet Briar, Va., where she will enter college.

Miss Mabel Gray is a guest at the home of her parents, Mr. and Mrs. A. P. Gray. During the past six months she has been associated with the tuberculosis in Denver, Colo., and will leave the first of next month for Minneapolis, Minn., where she will be connected with the Student Health Service at the University of Minnesota.

E. A. Ripley returned Thursday evening from the Twin Cities, where he has been during the past week on business.

Good News!

First Presbyterian Church 10:30. Crime, disaster, misery everywhere. The newspapers have much bad news. Listen to a story of Good News tomorrow. Get away from that lazy feeling that masters you on Sunday morning. Let not your golf clubs tempt you; forget the purr of your auto; throw your paper aside for the afternoon and join the Good News crowd. Sermonette for boys and girls. Special music by Mrs. Barnes and Mr. Halverson. Junior Sunday School, 9:30. Other departments at 12 m. One of the best organized schools in the state. Evening worship, 8:00. Great theme: "The Prince of Peace." Three special numbers of music. Let every person attend.

NORTH DAKOTA AGRICULTURAL COLLEGE

FARGO, NORTH DAKOTA

NORTH DAKOTA'S INSTITUTE OF TECHNOLOGY

Designated for the training of vocational teachers under the Smith-Hughes Act—Offers

THIRTEEN BACCALAUREATE CURRICULA, VIZ.:

Agriculture	Chemical Engineering	Home Economics
Architecture	Chemistry	Mechanical Engineering
Architectural Engineering	Civil Engineering	Pharmacy
Biology	Education	Science and Literature
	Veterinary Medicine and Surgery	

STANDARD REQUIREMENTS FOR ADMISSION AND FOR GRADUATION

Throughout, the curriculum of the institution is in thorough accord with modern thought and demands. The demand of the present is for young men and young women who can think and act in regard to the social, industrial and economic problems of the day. This demand the North Dakota Agricultural College is attempting to supply.

There is one scholarship available to the student who stands highest in his class at graduation. This scholarship covers the remission of all fees incidental to the completion of any one of the four-year curricula.

YOUTH BEAUTY LAUGHTER GIRLS GIRLS

TWO CHILDREN DEAD KILLED BY LIGHTNING

Storm at Garrison Causes Two Fatalities and Much Property Damage

Garrison, N. D., Sept. 9.—The H. O. Furuseth home was struck by a bolt of lightning in the destructive electrical storm about 4 o'clock Thursday morning causing the death of two of the children, one girl 7 and a boy 3 years old.

The Furuseth home in the country about 9 miles in the path of the storm. The lightning is that to have entered the home from the telephone wire, as the nearest post was splintered and the phone torn from the wall. It seems the bolt went up to the second floor. Marks were seen on the floor in the room where Mr. Furuseth was sleeping, and it passed on to the wall, through a wall into the room where the two children and an elder girl of 12 were sleeping.

The night had been very hot and the children could not sleep in the bed, so a bed had been made of blankets on the floor. The crash came immediately after the crash came the parents' attention was called to the children. The older girl was unconscious and appeared lifeless, while the other two had pulse for a few minutes but soon passed away. The older girl revived and after several hours recovered from the shock.

The bolt went to the corner of the room and up and apparently out the roof, doing no damage to the house which was protected by lightning rods. There seems to be varied opinions as to the course of the bolt through the house, but nevertheless it was fatal.

Friends and neighbors gathered at the home early Thursday to sympathize with and assist the heart broken parents and family.

Funeral services were held at the Douglas Lutheran church conducted by Rev. Anderson. The church was beautifully decorated with plants and many beautiful floral offerings from friends of the family. Interment was made in one grave in the Lutheran cemetery near Douglas.

Much property damage was caused by the storm.

FORMER STATE OFFICIAL DIES

Luther L. Walton, Once Railroad Commissioner, Succumbs

Carrington, N. D., Sept. 9.—Luther L. Walton, 79, Civil war veteran, second man to settle in Wells county, former railroad commissioner and legislator, was found dead in his barn here, where he had apparently died while asleep. He had appeared robust and healthy, with mental faculties unimpaired up to the time of his death.

Born in Oakland county, Michigan, Mr. Walton was raised on a farm. He attended the country schools and the high school at Ann Arbor. In 1868 he enlisted in Co. F, First Michigan engineers, serving until the close of the war, with Sherman in his march to the sea, and participated in the grand review at Washington, D. C.

He married Jane E. Norton in 1868, who with four children, Guy A. and J. J. Walton of Carrington; Hugh B. Walton of Deer Park, Wash.; and Mrs. Elizabeth Walton-Moore of Devils Lake, survive. He also leaves 6 grandchildren.

In 1882 he moved from Michigan to Wells county, and took a claim. He hauled lumber for his claim distant from Jamestown, 50 miles. Eventually he acquired an estate of 1,600 acres extensively improved. Returning from his farm he moved to Carrington several years ago.

For many years he took an active interest in public affairs, having been prominent in the Republican party. He was elected a representative to the first state legislature in 1889, and re-elected in 1890. He was sergeant-at-arms in the state senate in 1894 and elected state railroad commissioner in 1896 and 1898.

COUGHS DISTURB SCHOOL WORK

School teachers should give the same advice to children who have coughs as this Florida teacher. "I recommended Foley's Honey and Tar to the children in my school who had the 'flu' and good results came whenever it was used," writes Mrs. L. Armstrong, Okeechobee, Florida. Foley's Honey and Tar contains no opiates—ingredients printed on the wrapper. Stood the test of time serving three generations. Quickly relieves colds, coughs and croup, throat, chest and bronchial trouble.—Adv't.

NOTICE AND CITATION, HEARING OF FINAL ACCOUNT AND DISTRIBUTION OF ESTATE

STATE OF NORTH DAKOTA, County of Burleigh—ss. In County Court, Before Hon. I. C. Davies, Judge.

In the matter of the estate of Charles Arthur Rapp, deceased.

George M. Register, Petitioner, vs. Almeda M. Hawthorne, otherwise known as Mrs. J. M. Hawthorne, Florence E. Long, otherwise known as Mrs. J. B. Long, Elmer Rapp, George E. Rapp, otherwise known as G. E. Rapp, Maurice E. DeWitt, Wendell E. DeWitt, a minor, Kenneth W. DeWitt, a minor, the sole heirs of Gertrude DeWitt, formerly Gertrude Rapp, deceased and J. P. Jackson, the special guardian of said Kenneth W. DeWitt, a minor, Respondents.

The State of North Dakota to the above named Respondents:

You, the said respondents are hereby notified that the final account of George M. Register, the administrator with the will annexed of the estate of Charles Arthur Rapp, late of the city of Great Falls and State of Montana, deceased, has been returned to this Court, the said account showing that the estate of said deceased is ready for final settlement and distribution, and petitioning that his account be allowed, the residue of said estate be distributed to the persons therein entitled, his administration closed, and he be discharged.

And you, the above named respondents, and each of you, are hereby cited and required then and there to be and appear before this Court, and show cause, if any you have, why said account should not be allowed, the residue of said estate distributed, the administration of said estate closed and said administrator be discharged.

Dated the 7th day of September A. D. 1922.

CORWIN MOTOR CO.

The Creamery, an Aid to Dairying

We have been discussing dairying for this community with the idea of trying to make it a permanent industry. In all the successful dairy states it has been demonstrated that dairying cannot be permanently or profitably established without the aid of a creamery. The creamery provides the market for the butterfat.

While it is not necessary that the creamery be a co-operative creamery, nevertheless the experience of most all dairy communities is that the co-operative creamery is the best. It is not hard or difficult to organize and establish a co-operative creamery. If the State farm school cannot send a man to advise and help, the secretary of most any successful co-operative in Minnesota could be secured at small expense to visit the community and help perfect the organization.

Such a creamery should not be organized unless there are cows enough in the neighborhood to support it because if the creamery has a limited supply of butterfat, the overhead expense of manufacture is too high. It is not wise to start a creamery unless at least 400 good cows are pledged and it more can be secured, so much the better.

In a way, the following maps out what our program in this community ought to be:

Get into the dairy business to an extent such that we have at least 400 good cows available to support a creamery. With this number of cows and the farms so farmed as to grow the feed these cows will need and the system of farming, so perfected that these cows can be properly cared for and the herds graded up and added to, there won't be any question about our community getting its farming operations upon as profitable a basis as the dairy communities of Minnesota and Wisconsin.

What such a program will mean for the permanent prosperity of our community can hardly be overestimated.

Here are some actual figures showing what the carrying out of this sort of a program did for the farmers of Todd County, Minnesota. In studying these figures just recall what you were able to get for any little quantity of butter you may have happened to make on your farm and sell in whatever channels were available to you. Here are the average NET price per pound paid by all co-operative creameries in Todd County, 18 in number, for butterfat for the years mentioned:

Year of 1917	47 5c
Year of 1918	58 2c
Year of 1919	68 7c
Year of 1920	69 8c
Year of 1921	45 7c

Just study these figures a while and decide whether or not it pays to get the farm onto a dairy basis with a good creamery as the butterfat market.

These prices brought the farmers of Todd County over two million dollars cash each year and there is this about dairying. It is progressively profitable; that is, every year it gets better. The farm gets more and more onto a dairy basis, the feed is easier to raise, its production is more certain, the cows get better and better as they are graded up, and the soil of the farm itself is constantly improved because of the presence of the livestock.

What a wonderful thing it would be if we could make this community permanently and dependably prosperous. The program we have been outlining has brought such prosperity to other farm communities. It will bring it to our community. Dairying is not only profitable in itself but it leads to other kinds of farming that are profitable. It makes a business man out of the farmer, enables him to profit through his study, planning and his ability. The establishment of a co-operative creamery does other things too, besides providing a dependable market for dairy product. It promotes community spirit. It teaches farmers to work together and prepares the way for the taking up of other projects that are beneficial not only from the standpoint of profit but in a social and an educational way. We are some years behind the prosperous and progressive farm communities of the dairy sections of Minnesota and Wisconsin but let's not get any further behind. Let us take this dairy and creamery project and put it over. We shall have more to say about his matter next week.

Christian Science Society

Corner 4th Street and Avenue C.
Sunday service at 11 a. m.
Subject: "Substance."
Sunday school at 9:45 a. m.
Wednesday evening testimonial meeting at 8 o'clock.

U. S. TO RESIST COUNTER SUIT FOR INJUNCTION

Files Petition for Dismissal of Electrical Workers' Suit in Washington

Washington, Sept. 9.—The government through its local legal representatives today moved the dismissal of the petition for an injunction brought by the International Brotherhood of Electrical Workers, seeking to prevent enforcement of the restraining order issued by Judge Wilkerson at Chicago. The supreme court of the District of Columbia has no authority to review or modify the Chicago order, it was contended, and the plaintiffs here will have every opportunity to seek relief before the Chicago tribunal.

The executive council of the American Federation of Labor went into conference here today to lay down the organization program for the coming year.

Samuel Gompers, head of the Federation, is to preside over the executive council sessions, which are expected to continue into next week. Sitting with him are Frank Morrison, secretary; Daniel J. Tobin, treasurer, and eight vice presidents of the organization.

Also in attendance but without voice in the official proceedings of the council are a score of the heads of national labor organizations. The shop craft strike and the Daugherty injunction together with discussion of the American Federation of Labor's political program, were expected to lead discussions today. The political plans of the council will not come to a head until early next week.

ASK ORDER VACATED

(By the Associated Press)
Chicago, Sept. 9.—A motion to vacate the government's temporary restraining order against the shop craft union, insofar as it applies to Bert M. Jewell, head of the railway employees department of the American Federation of Labor, and John Scott, secretary, was filed in United States district court today.

The action was begun by Attorney Donald R. Richberg on behalf of the railway employees department and was based on three general allegations, first that the government had failed to make a case; that the relief asked and obtained on a temporary order was prohibited by the Clayton Act, and that the relief was sought and obtained with ulterior objects and under misrepresentations.

A reading room is open in the church building every Tuesday, Thursday and Saturday except legal holidays, from 2 to 4 p. m. All are welcome to attend these services and to visit the reading room.

First Lutheran Church

Seventh Street and Avenue D.
Morning services 10:30.
Sunday School at 12 noon.
Evening services at 8 o'clock.
All are cordially invited to attend these services.

E. F. Alfson, Pastor.

Guttenberg the 'Accordion-ist' will surely please you tonight at Wagner's Riverside.

CUT THIS OUT—IT IS WORTH MONEY

You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills for pains in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels.—Adv.

Special Meeting—Bismarck Lodge No. 5, A. F. & A. M., Monday 7:30 p. m. E. A. De-gree.

MRS. MARY ROSS

Are You a Weak Woman?

Health is Most Vital to Every Woman. Read What Mrs. Ross Says

Minneapolis, Minn.—"When my children were small I had a sick spell that weakened me so I could not walk across the floor without the aid of a chair. Our druggist advised me to take Dr. Pierce's Favorite Prescription and Golden Medical Discovery alternately, according to directions, and six bottles completely restored me to health and strength. Since that time I have frequently recommended these two famous remedies to members of my own family and my friends, and have seen only the most satisfactory results from their use. —Mrs. Mary Ross, 2213 22nd Ave. S.

Health is wealth. Do not neglect the most valuable asset you have. Write Dr. Pierce, president Invaluable Hotel, in Buffalo, N. Y., and receive good medical advice in return, free of all expense, or send 10c for trial pkg. of tablets.

AT THE MOVIES

THE ELTINGE

What is the greatest joy in life? Is it riches with all they can bring, or is it peace of mind with the outstanding consolation that whatever happiness is found comes, chiefly, from within and gives rather than takes?

These questions are dramatically brought forward in a brilliant, Paramount-Cosmopolitan picture, "Back Pay," which will be shown at the Eltinge Monday and Tuesday. Seena Owens and Matt Moore portray the principal characters. Hester Evans, (Miss Owens), has always craved luxury. She has never been out of the town in which she was born. Jerry, (Mr. Moore) was born in the same place, but the doings and the lure of the greater cities have ever been a call to him. Her call comes and she leaves. He beauty soon finds her among the rich of New York with one of whom she forms an alliance which assures her wealth and pleasure.

Jerry's call came and he left for the battlefields of France. It did not seem as if their lives would ever cross each other's again. And it remains to the story to say how and why. Aiding Miss Owens and Matt Moore in a well chosen cast are J. Barney Sherry, Ethel Dury and Charles Craig.

CAPITOL

"Turn to the Right" has many things in it—of that there is no doubt. It has the freshness that breezes through the scenes of the "Fortune Hunter" and that Mr. Smith puts into his work habitually, the freshness of hopeful, honest, earnest ambition young men and women. Mr. Smith sends his audience home with so often. But in addition to these things, the piece has a wealth of incident, a complication of plot, a rapid succession of situations that bring to mind the "degs," "Two heads are better than one." And the suggestion follows that this adage may be particularly true when Mr. Hazard's head is one of the particular pair. Then the fun begins. Fun, excitement, tears, smiles, etc., until the audience literally howls with delight. Go to see it. Even if you have to turn to the left, you will "Turn to the Right."

It will be shown at the Capitol theater three days, commencing Monday.

U. C. T. MEETING

There will be a regular meeting at the Elks Hall tonight. We want every U. C. T. to turn out as this is the first Fall meeting.

The Ladies' Auxiliary is to put on an entertainment after the meeting. All visiting U. C. T. members are always welcome.

O. H. ERUM, Sr. com. JOHN GORGE, Secy.

FARGO BALL PLAYER SUES FOR MONEY

NEWS OF SPORT WORLD

RAIMENT DOESN'T MAKE A MAN—BUT IT SURELY DOES HAVE A LOT TO DO WITH WHAT HE LOOKS LIKE

Ken Williams, As Himself, As a Swat Artist, As a Doughboy

How many big league stars could you identify out of the baseball uniform? In uniform, you recognize that familiar swing no doubt. That can't be anybody but Kenneth Williams of the St. Louis Browns.

You're right.

But who's the chap in the nifty street suit, white collar and silk cravat?

Who's the smart-looking soldier,

standing at attention, in Uncle Sam's khaki?

Three Different Views

There you have three different views of the new home-run hitter in the major league circuit this season—Kenneth Roy Williams.

Yes, Kenny was a member of Uncle Sam's fighting family. He shouldered a musket, as you see. He was just getting ready to suit across the Atlantic to spear a lot of the enemy on his bayonet's point when the armistice was signed.

Williams is the biggest hitting

sensation of the year. Who'd have believed that anybody would be bold enough to challenge Babe Ruth's home-run record? Who'd have believed that anybody would establish three home-run records that the Babe never claimed?

Babe's Fame Dimmed

Well, Williams has three such records to his credit for the season, somewhat dimming the Bambino's fame as a swatter of circuit clouts.

On April 22 Ken made three home runs against the White Sox. Starting July 28 he poled six

homers on six successive days.

On Aug. 7 he hit two home runs in the sixth inning against the Washington Senators.

Thus, you will see, Babe is not the only pebble on the home-run beach.

The race between Williams and Ruth promises to be a close one as the season draws to a close, with the odds favoring the St. Louis representative, as he has a majority of his remaining games at home.

Williams has made 25 homers on the domestic lot this season.

BROWNS SHOWN LEADING YANKS IN SEASON PLAY

"Dope Sheet" Gives St. Louis. Better of All Departments Except Sacrifice

OTHER LEAGUE RECORDS

(By the Associated Press)

Chicago, Sept. 9.—With the Yankees and Browns neck and neck in the home stretch of the American League pennant race today, a dive into the batting averages of the two contenders reveals the startling fact that the St. Louis batters have connected with 151 more hits than their Yankee rivals; scored ninety-nine more runs, stolen eighty-three more bases, and have batted excellently in sacrifice hitting.

The figures show the Browns have connected with 1471 hits as against 1317 for the Yankees, and have scored 765 runs, as compared with 666 for New York. In home run hitting, the Browns, with Ken Williams in the lead, have belted out eighty-seven, while the Yankees with their mighty Ruth, are trailing with eighty-three.

Better Base Runners.

In base stealing the Browns excel nearly two to one—stealing 117 bases as compared with fifty-five for the Yanks. The Browns also have proved the better club in getting bases on balls, having a total of 407, with 234 for the New Yorkers.

George Sisler, first base star, is not alone in the hitting drive of the Mound City club. John Tobin is fifth in the list of league leaders with an average of .330, while Williams, who cracked out his thirty-fifth homer of the season, is batting .325. Hank Severid, who has been doing the burden of the catching for the Browns, is batting .319, while McManus, Jacobson and Pat Collins, pinch hitting utility catcher, all are above the .300 mark.

The batting of Sisler the last week enabled him to boost his average from .418 to .421, which makes it an almost certainty that he will finish the season well above the .400 mark. In his last eight games, Sisler connected with nineteen hits, five of which were doubles and one a triple.

On the path, Sisler romped across the plate twelve times, which gave him the lead as the best run getter. Sisler has registered 120 times, while Blue of Detroit has counted 117. The St. Louis favorite is putting every ounce of his energy into the game, while the clubs enter the home stretch. He never misses an opportunity to stretch a hit or steal a base. He stole five during the week and is for a lead of his rival, Ken Williams, for the base-stealing honors with forty-seven. Williams has stolen thirty-three.

Ruth Trailing Hard

If he Ruth following him, third runner of the season, is having a time to overtake his rivals in home run hitting. He celebrated his return by cracking out his twenty-ninth four-bagger, but he still is trailing

Thlie Walker of Philadelphia who has thirty-three and Williams of St. Louis who is leading with thirty-five. The average include games of Wednesday.

Other leading batters for ninety-five or more games: Cobb, Detroit, .396; Speaker, Cleveland, .378; Heilmann, Detroit, .357; Tobin, St. Louis, .339; Galloway, Philadelphia, .335; Schanz, New York, .333; Ed. Miller, Philadelphia, .332; Pipin, New York, .327; J. Harris, Boston, .327; Williams, St. Louis, .326.

Miller Goes Well.

Lawrence "Hack" Miller, the former San Francisco slugger, is giving the National League a surprise with his great stick work and is doing his bit in keeping the Chicago Cubs among the contenders for the pennant. Miller is in third place among the leaders with an average of .350, according to figures which include games of Wednesday. He has batted 142 hits in 101 games, his hits include twenty-seven doubles, two triples and eleven homers.

Rogers Hornsby enjoyed a profitable week, increasing his average from .339 to .391 for the leadership. He smashed out fourteen hits in his last eight games, giving him a total of 204. Besides his thirty-four home runs, Hornsby has made thirty-five doubles and eleven triples.

Max Carey, whose speed has shown no falling off, has stolen thirty-nine bases and is the leading scorer, having counted 118 failures for the Pirates.

Other leading batters in ninety-five or more games: Tierney, Pittsburgh, .376; L. Miller, Chicago, .360; Grimes, Chicago, .354; Riepke, Pittsburgh, .351; Hollecher, Chicago, .350; Dabbert, Cincinnati, .340; Carey, Pittsburgh, .338; D. Dean, Cincinnati, .333; Gooch, Pittsburgh, .333.

Myatt Leads.

Although out of the game for a week Glenn Myatt, star catcher with Milwaukee, remains on top of the heap in the race for the batting championship of the American Association with an average of .376, ten points ahead of Jay Kuke of Louisville, his closest rival. Wilber Good of Kansas City, is third with .363. The averages include games of Wednesday.

Bunny Brief of Kansas City, by connecting with five home runs in his last eight games, is setting such a stiff pace that he virtually is assured of the "one run hitting" honors for the season. He has whaled out thirty-three, while Becker, also of Kansas City, is next in line with twenty-three.

Baird of Indianapolis continues to be the class in base-stealing with a total of twenty-five.

Other leading batters for ninety-five or more games: Becker, Kansas City, .356; Lear, Milwaukee, .354; Lynam, Toledo, .353; Brown, Indianapolis, .351; Matthews, Milwaukee, .350; Combs, Louisville, .344; Brier, Kansas City, .338; Hans, St. Paul, .336.

KRAUSE KNOCKS OUT SCHULLING

But Krause knocked out Joe Schulling at Baylath last night, according to a telegram received by The Tribune today. This is the second recent K O for Krause. He put Buck Garrison out at Wilton Labor Day.

Ruth Trailing Hard

If he Ruth following him, third runner of the season, is having a time to overtake his rivals in home run hitting. He celebrated his return by cracking out his twenty-ninth four-bagger, but he still is trailing

YANKS HOLD SLIGHT LEAD FOR PENNANT

(By the Associated Press)

Chicago, Sept. 9.—The New York Yankees were leading again today in the sea-saw battle with their St. Louis rivals for the pennant. The Yankees were holding a margin of a half game as a result of Carl Mays' victory over Walter Johnson of Washington, 8 to 1, while Detroit pounded the Browns' leading twirler Shocker, and won, 8 to 3.

Ken Williams kept ahead of Rogers Hornsby, his National League rival in the home run race by ramming out his thirty-sixth circuit blow while the Cardinals' star hit his thirty-fifth of the season. Williams' wallop accounted for all 3 of the Browns' runs, while Bob Veatch led the Tiger attack with a brace of home runs.

The New York Giants were out-slugged by Philadelphia, the Quakers making a target of Art Nehf and winning, 8 to 4. The champions kept their advantage over Pittsburgh as the Pirates dropped a hard hitting contest to Chicago, 10 to 7.

St. Louis hit Johnny Couch hard to defeat Cincinnati, 6 to 1. Nasty of the Athletics held the Boston Red Sox to four hits but lost, 2 to 1. Eddie Collins' batting featured Chicago's second straight victory over Cleveland, 7 to 2.

Sport Briefs

(By the Associated Press)

Hartford, Conn.—Peter, the Brewer won the Charter Oak Stake, which featured the Grand Circuit race meet.

Hamline, Conn.—Captain Mosby won the 2:30 trot feature event of the Great Western circuit races at the State Fair.

AG. COLLEGE GOES TO LAKE FOR PRACTICE

Eager to get into the harness for the 1922 football season, candidates for the North Dakota Agricultural College football eleven will go into Camp Monday, Sept. 11, at Lake Saliva, a short distance from Detroit, Minn. Just how many will avail themselves of this preliminary training under Coach "Stan" Borke, the Aggie mentor, depends largely upon the men themselves. Borke's invitation to attend the camp was extended to all candidates.

The "toughening up" process will consist of two light workouts daily, road work, instructions in the rudiments of the game by means of lectures and crayon talks and rules tests.

The men will remain in camp until September 25, when they will return to Fargo in time for college registration which begins Oct. 4. The regular training program will be instituted immediately upon the opening of college.

(By the Associated Press)

Baseball results, Sept. 8:

NATIONAL LEAGUE
New York 4; Philadelphia 8.
Chicago 10; Pittsburgh 7.
St. Louis 6; Cincinnati 1.
No others scheduled.

AMERICAN LEAGUE
Washington 1; New York 8.
Philadelphia 1; Boston 2.
Cleveland 2; Chicago 7.
Detroit 8; St. Louis 3.

AMERICAN ASSOCIATION
Milwaukee 5; St. Paul 8.
Kansas City 6; Minneapolis 8.
Louisville 2; Columbus 3.
Indianapolis 10; Toledo 3.

Pittsburgh, Kan.—Judge Curran refused to parole Alexander Howat, deposed leader of the Kansas Miners' union.

LACE FANS.

Fans in black lace over metal cloth which brings out the design are shown for fall. They have a certain Spanish feeling which makes them harmonize with the high combs and lace and embroidered shawls.

RICH EFFECTS.

Practically all the evening gowns not made of metal cloth feature it some way. Rhinestones and pearls are used in large quantities to further the effect of richness and splendor.

PARADISE.

"Paradise" is the name of a new shade of gray that is threatening the popularity of brown. It is a warm color that combines beautifully with gray furs.

SPANISH LACE.

Spanish lace is being widely used to match the frock, though most frequently such gowns are carried out in all-black.

SWEETSER TO BATTLE WITH CHICK EVANS

(By the Associated Press)

Brookline, Mass., Sept. 9.—Chick Evans of Chicago, and Jesse Sweetser of New York, a 33 year old golfer whose accomplishments have been unequalled by any other amateur, and a 20 year old collegian who has broken the record on nearly every course he has played this season, the Western amateur champion and the metropolitan titleholder, plays today in the final round over the country club course to decide the world's amateur supremacy of the year on the links.

The contest actually was for the amateur title of the United States, but the best amateurs of the British empire could send were entered in the tournament, and no country but these two has ever had a golfer of championship caliber.

Sweetser won his way to the finals by a sensational victory in the semi-finals over Bobby Jones, in which he broke the course record with a 69. Evans, without being pressed by Rudy Knepper, went around in par 71. These feats caused the great gallery to expect the closest of matches today.

Sweetser was 3 up at the 18th hole.

NEWS BRIEFS

(By the Associated Press)

Washington.—Thomas W. Page of Virginia, former chairman of the tariff commission, placed his resignation in the hands of President Harding.

Fond Du Lac, Wis.—Jimmy Dean of Chicago, pilot, and Clarence McLaughlin of Boston, mechanic, were seriously injured when their plane fell.

Knobel, Ark.—The Pugsley "lipstick" case was appealed to the state supreme court by attorneys for Miss Pearl Pugsley, dismissed from school for using cosmetics.

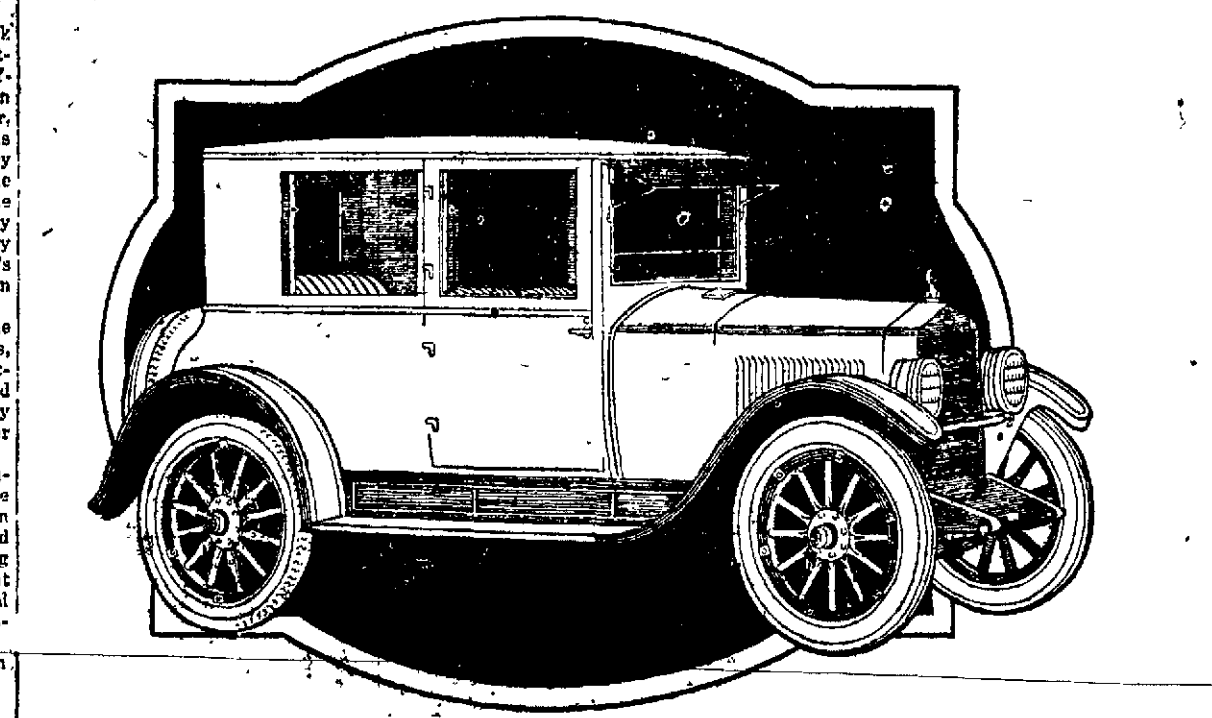

Lima, Peru.—Foreign Minister Salomon announced that Peru does not intend to participate further in league of nations and will reconsider only in the event the United States joins the league.

St. Paul, Minn.—J. T. Clark, 70, president of the Chicago, St. Paul, Minneapolis and Omaha, railway, died.

Omaha, Neb.—Because of his self-styled "progressive" views of the Bible, the Rev. J. D. Buckner of Aurora, was recommended for retirement by the Nebraska methodist conference.

Okmulgee, Okla.—C. W. Jeffries, publisher of a weekly paper at Morriston, Arizona, was charged with libel for printing the alleged oath of the Knights of Columbus alongside what he claimed was the oath of the Ku Klux Klan.

Ann Arbor, Mich.—Miss Alice Tanton of Detroit, expelled from the Michigan state normal school for smoking cigarettes, lost her fight for reinstatement when her plea for a writ of mandamus was denied. Her friends said the case would be carried to the supreme court.

THE FINAL RETURNS

IN "THE DIGEST'S"

Huge Poll On Prohibition and The Bonus

More Than 900,000 Votes Tabulated

In this week's LITERARY DIGEST the final returns, 922,383 ballots on Prohibition, and 911,035 votes on the Soldiers' Bonus, are summarized. This brings to an end one of the most sweeping polls, outside of a general election, that has ever been taken in the United States. A separate summary of the ballots that have been received from the 2,200,000 mailed to women is also given.

In the deeply interesting article that accompanies the tabulation the public will be treated to many surprises which this summary reveals. There are opinions from William Jennings Bryan, and the editor of the Pennsylvania edition of The American Issue, the leading "dry" organ; also from Roger W. Babson, who writes from the viewpoint of a prohibitionist and a statistician.

There is also a final analysis of the various polls that have been taken on the question of the Soldiers' Bonus.

You will be interested in reading details of how "The Digest" conducted this epoch-making poll; where the names came from; the safeguards that were used against forgery; how, in some instances, ballots were imitated and sent in, and many other sidelights.

To show the world-wide interest in this poll, it may be mentioned that the Wireless Press News, printed on a steamer en route between America and Japan, contained a radio dispatch, bulletined over an area of forty-six million square miles of Pacific Ocean, which carried THE LITERARY DIGEST returns then available on the poll.

"Fun From the Press" An Instantaneous Hit!

"The Digest's" new motion picture series "Fun From the Press" as shown last week for the first time in many of the country's leading theaters, left audiences in a merry mood after five minutes of continuous laughter. The management of the new four-million dollar Eastman Theater of Rochester, N. Y., says: "Fun From the Press" was selected by us in line with the policy of booking only the best."

Why not ask the management of your favorite theater to run it in his program if he is not already doing so?

News of the Markets

WHEAT RISES
FOUR CENTS ON
WEEK'S MARKET

Car Situation Still a Factor
and Export Business on
Increase

(By the Associated Press)
Minneapolis, Sept. 9.—The week ending September 8 witnessed an advance of 4 cents in Minneapolis wheat and rye futures, and an 18 cent advance in flax futures, according to the weekly review of the United States department of agriculture.

There has been a good floor demand mostly for prompt shipments. Local mills are operating about 60 percent of capacity. Flour prices were advanced 15 cents yesterday, with the upper end of the spring first aptent is quoted at \$6.65 @ \$7.20 in carload lots. Feed sales have been increased by drought conditions, and car shortage.

Movement of wheat to Minneapolis has been increasing, but meeting a good milling demand. Premiums for cash wheat have been fully maintained. The car situation is still a factor, and export business in wheat has been increasing somewhat. Receipts at the port of Minneapolis are reported to be in excess of the department of agriculture have indicated that European needs of wheat will be greater than earlier estimates, the French harvest turning out poorly. Current receipts of wheat at Minneapolis are in evidence that the crop has better average milling merit than earlier arrivals indicated. Sales of cash grain continued to show a wide range.

The demand for durum wheat has been improved, with milling and export prices closer together and better competition.

Receipts of corn continue very light, mostly being applied in old stocks. Oats continued in good demand, with millers taking most of the receipts. Basis of prices on cash flax were unchanged, with No. 1 seed selling at 2 cents over the Minneapolis September first futures.

Corn was unchanged. Oats were a little slower. Rye started off firm compared with September, but eased off later when the future had a spurt compared with December. Barley was weaker. Some of the shorts were in and this tended to take the edge off of the demand. Offerings still moderates. Flax offerings were liberal, but there was a good demand for all spot stuff.

STOCKS MOVE
TO NEW HIGH
PRICE LEVELS

(By the Associated Press)
New York, Sept. 9.—Overcoming a temporary setback, which was induced by professional selling against a weakened technical position, prices of stocks again move to new high ground in this week's trading. Virtually all classes of shares participated in the advance, but the largest gains were made by selected stocks of companies whose financial status and prospects encouraged bull operations.

Commodity prices, especially of basic iron and steel products, continued to move to higher ground, although some recessions were noted in quoted sales of cotton, sugar and grain products. Further increases in steel products were expected next week. Steel production showed a slight increase and more blast furnaces resumed operation, but the handicaps imposed by the railroad strike and fuel shortage have not been entirely overcome.

Western shippers encountered another sinking spell during the week on further reports of decreased production and the publication in a Standard Oil organ of a statement that American companies operating in that country were expected to write off a loss of one half of their half billion dollar investment. A recovery set in towards the end of the week, on reports that the Mexican Petroleum corporation was constructing two new refineries in Mexico to extract gasoline from natural gas.

Eastern industrial centers report a shortage of skilled labor, including mechanics and employees for the building trades, while unskilled labor is in good demand in the Northwestern states because of the unusually heavy crop movement.

Adoption of the plan of Hugo Stinnes for the rebuilding of the Mexican country, which would involve shipping from Germany, was interpreted in some local banking circles as forecasting a downward revision in reparations payments.

Publication of the summary of the Mexican country, which would involve shipping from Germany, was interpreted in some local banking circles as forecasting a downward revision in reparations payments.

Exchange rates were irregular, due in a large measure to the demand for Mexican bills to finance grain and cotton shipments. German marks held up well despite the weekly increase of 23,800,000,000 marks in the note circulation of that country.

The decrease in the rate of call money, which had been accepted from 4 to 3 1/2 percent has been one of the features in the week's money market. Call money was held between 4 and 4 1/2 percent and there has been a slight hardening in time money and commercial paper rates.

NEWS OF WALL STREET

(By the Associated Press)
New York, Sept. 9.—Continuation of the upward swing of prices took place at the opening of the stock market, dealings being comparatively light but extended over a broad list. The demand for specialties was not as pronounced as it has been during the past few days but now, in the first few minutes of trading by Lehig Valley, Atlantic Coast Line, Chicago Pneumatic Tool, Norfolk and Western, Federal Mining and Smelting, preferred, Iron Products and Eastern Coal, the gains ranging from small fractions to three points. Rails and equipments were in fairly good demand, moderate gains being recorded by St. Paul, common and preferred, Reading, Union Pacific, Pullman, Baldwin, and Chesapeake and Ohio. Mexican Petroleum climbed one point. A rise of 1 to 3 points also took place in Stromberg Carburator, Sears-Roebuck, General Electric, Retail Stores, Lorillard, Standard Oil of New Jersey and Kelsey Wheel.

Bullish demonstrations in individual stocks, which was encouraged by investment buying of Standard shares, featured the general upward swing in today's session of the stock market. Profit taking sales cut into the prices of such stock as Studebaker, American Woolen, Norfolk and Western, Crucible Steel and Marine, preferred but it did not halt the buying in other quarters. A score of shares established new peak prices for the year while the buying movement was at its heights. Gains of 3 to nearly 7 points were made by Liggett and Myers, Borden's, The Coast Line, Wm. Wiles Biscuit, Postum-Cereal, Iron Products and Kelsey Wheel. Wall Street's belief that the shopmen's strike was no longer a serious hindrance to freight movement found expression in the marked buoyancy of railroad shares. The closing was strong. Sales approximated 350,000 shares.

CORN WEAK

(By the Associated Press)
Chicago, Sept. 9.—Weakness in corn and a decline in Liverpool quotations led to lower prices in wheat here today at the start. There was some early selling but the trade was not large. The opening, which ranged from unchanged figures to 3/4c lower, with December \$1.01 1/2 to \$1.02 1/2, and May \$1.07 1/2 to \$1.07 3/4, underwent a slight further decline then rallied to around the initial quotations.

General selling on the government report and rains and cooler weather sent corn prices downward at the start today. Fair support developed on the breaks and a small rally from the inside figures followed. After starting 3/4c to 1 1/2c off, with December 55 1/2 to 56 1/4, the corn market rallied a little all around.

Oats started a shade to 3/4c off, with December 35 1/2 to 35 3/4, and held close to the initial range. Provisions were the support being light with scattered offerings at a decline.

POTATOES STRONGER

(By the Associated Press)
Chicago, Sept. 9.—Potatoes slightly stronger, receipts 42 cars, total U. S. shipments 573; Wisconsin sacked cobbles 90c @ \$1.05 cwt.; bulk cobbles \$1.00 @ \$1.10 cwt.; Minnesota sacked Sandland Ohio 90c @ \$1.00 cwt.; sacked Red Rivers \$1.00 @ \$1.10 cwt.; Idaho sacked rural \$1.15 cwt.

LIBERTY BONDS

(By the Associated Press)
New York, Sept. 9.—Liberty bonds closed:

Liberty 3 1/2's	100 84
First 4 1/2's	100 70
Second 4 1/2's	100 22
Third 4 1/2's	100 22
Fourth 4 1/2's	100 60
Victory 4 1/2's	100 70
Victory 4 1/2's	100 34

Commodity Products Especially Iron and Steel Show Marked Advances

(By the Associated Press)
New York, Sept. 9.—Overcoming a temporary setback, which was induced by professional selling against a weakened technical position, prices of stocks again move to new high ground in this week's trading. Virtually all classes of shares participated in the advance, but the largest gains were made by selected stocks of companies whose financial status and prospects encouraged bull operations.

Commodity prices, especially of basic iron and steel products, continued to move to higher ground, although some recessions were noted in quoted sales of cotton, sugar and grain products. Further increases in steel products were expected next week. Steel production showed a slight increase and more blast furnaces resumed operation, but the handicaps imposed by the railroad strike and fuel shortage have not been entirely overcome.
